

SIGNIFICANTLY IMPROVE YOUR ASSET VALUE

COMMISSION ALPHA THAMES TO DESIGN YOUR NEXT SUBSEA FIELD DEVELOPMENTS

The Alpha Thames method is to utilise known field proven equipment, packaged into a unique "Just in Time" building block approach, which enables continuous production to suit varying reservoir conditions throughout field life.

Recent studies using Alpha Thames' approach on behalf of major clients covering G.O.M., Brazil and Africa, have shown savings in the region of \$2 to \$3 bbl plus increase recovery between 50% and 100% are feasible.
